SKILLS

FRONT END DEVELOPMENT | ReactJs • JavaScript • HTML • Bootstrap

BACK END DEVELOPMENT | Java • SpringBoot • Express • NodeJs

DATABASE | MySql • MongoDB

LANGUAGES | Java • C

MISCELLANEOUS | Android • AWS (S3,EC2,RDS) • DOCKER

SOFT SKILLS | Time Management • Presentation • Teamwork • Communication Skills

PROJECTS

Smart Inventory Management | ReactJs, Bootstrap, Spring, MySql

- Developed and implemented a comprehensive smart inventory management system that included modules for managing categories, products, inventory, warehouses, suppliers, and order items.
- Built scalable backend with Spring Boot, created efficient SQL database schemas, and designed a dynamic React frontend, integrating everything with RESTful APIs.
- Improved inventory accuracy, reduced operational errors, and optimized stock management, resulting in increased efficiency and cost savings.

Library Management System | ReactJs, Bootstrap, Spring, MySql

- Developed a library management system using React.js, Spring, and SQL, featuring book management, issue requests, student records, and automatic fine management.
- Implemented the system with a Spring backend, SQL database, and React.js frontend, ensuring seamless integration and automated library operations.
- Streamlined library operations, reduced manual errors, improved book tracking, and automated fine management, enhancing efficiency and user experience.

Learning Management System | ReactJs, Bootstrap

- Utilized React.js to create dynamic and interactive HOD panels, integrating real-time data visualization to effectively track and manage teacher assignments and student progress.
- Enabled HODs to efficiently oversee academic activities, improving task completion rates, and ensuring timely feedback, ultimately enhancing the overall learning process.

EDUCATION

CENTURION UNIVERSITY OF TECHNOLOGY AND MANAGEMENT (CUTM) | BBSR

B. Tech, Computer Science Engineering, 2025
Cgpa : 9.04/10

GHANASHYAM HEMALATA VIDYA MANDIR (GHVM) | Puri
Higher Senior Secondary(+2), 2021
Percentage: 94%

Senior Secondary(10th), 2019
Percentage: 77%

COURSEWORK

Data Structure and Algorithms
Windows App Development
(Calculator, Notepad) | J2SE
Android App Development
Theory Of Computation
Robotics
Discrete Mathematics
Differential Equations

AREAS OF INTREST

- Learning New Technologies
- Up skilling
- Web development
- Problem Solving
- Self Improvement
